

CURRICULUM OVERVIEW

Roadmap to Create a Culture of Philanthropy

ADVANCEMENT RESOURCES

Advancement Resources is the nation's leading provider of research-based development training. Our extensive curriculum features targeted, robust workshops designed to create powerful learning experiences that help participants build their organization's culture of philanthropy.

Participants experience our workshops in two ways:

Public

Workshops in our curriculum are frequently held on a public basis at various locations throughout the country. These workshops are a great way to train new staff members as well as provide a way to preview the workshop in a low-risk fashion.

At Your Campus

Many of the nation's top universities and medical centers partner with Advancement Resources for their strategic training plans. Workshops are held at your campus and focus on creating a culture of philanthropy across the entire organization.
